NAMASTE

EXPORTS

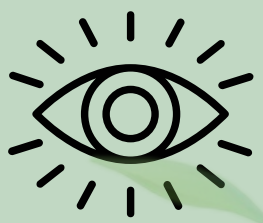

- Welcome to our eco-conscious oasis, where sustainability meets style! Explore our collection of biodegradable plates, the epitome of innovation for a greener tomorrow.
- Crafted with care from renewable resources, each plate embodies our commitment to preserving the planet without compromising on elegance or functionality.
- Step into a world where every meal is a celebration of sustainability.
- Our biodegradable plates seamlessly blend eco-friendliness with exquisite design, offering you the perfect canvas for culinary creations while reducing your carbon footprint.
- With every bite, you contribute to a healthier environment, knowing that our plates gracefully return to the earth, leaving nothing but memories and fertile soil behind.

Our Mission :

- **To redefine dining experiences with a conscience.**
- **Choose biodegradability without sacrificing sophistication.**
- **Together, let's make a lasting impact—one plate at a time.**

Our Vision:

- **To be a global leader in the export industry, delivering excellence, innovation, and sustainability in international trade.**

Our Core Value:

- **We conduct our business with honesty and transparency.**
- **we ensure the highest standards in every product we export.**
- **our clients' satisfaction is our top priority.**

High Quality:

- Our products are designed with meticulous attention to detail and crafted to perfection, ensuring they meet the highest standards of excellence.
- We understand that our customers deserve nothing but the best, which is why we go above and beyond to deliver products that are not only reliable but also exceptional in performance.

Our commitment:

- Join us in the journey towards a world where sustainability and sophistication intertwine seamlessly.
- Together, let's raise our biodegradable plates as symbols of progress, as symbols of hope for a flourishing tomorrow

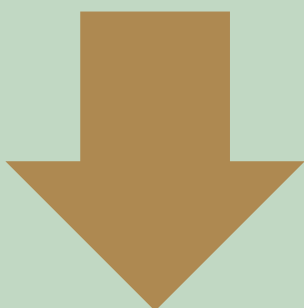

What is Bagasse Products ?

- Bagasse is the fibrous byproduct that remains after sugarcane, are crushed to extract their juice.
- It is an environmentally friendly material used to make a variety of products, particularly in the packaging and disposable tableware industry.
- Here's an overview of how bagasse products are made and how they decompose back into the soil:

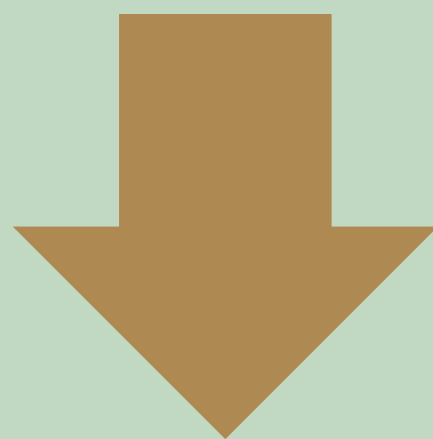

Sugarcane Molasses

Manufacturing

Final Products

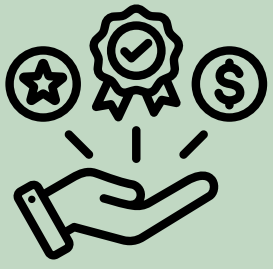

Decomposition Process

- After use, the biodegradable plates can be disposed of in composting facilities.
- Now this compost is used to help other seeds grow as a source of natural fertilizers.
- Again with time, plantation process is repeated which leads to extraction of raw materials.

Benefits :

- Sustainable
- Eco - Friendly
- Lower Carbon Footprints
- Non - Toxic
- Cost Effective
- Versatile & Durable
- Allergen Free

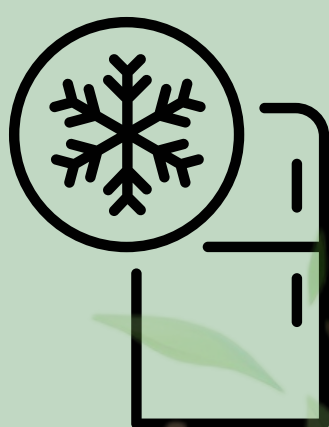

Our Products are :

100% Compostable

Food constant safe

Freezer friendly

Microwave friendly

Water & Oil resistant

Strong & sturdy

No Plastic coating

Round Sized Plates

Size	Weight
